

Professional Air Charter Services, Inc.

Drug Abatement -- AMPP Consortium

12817 McGee Street
Kansas City, MO 64145

816-942-2144
800-424-2144
Fax 816-943-9464

June 28, 2017

This is to certify that

AOG Aviation Spares
Attn: Karen Schoeny
114 Kirkland Circle, Ste. B
Oswego, IL 60543
karen@aogrepairs.com

is a fully-covered member of this Consortium/TPA, and its safety-sensitive employees are carried in the random-drawing pool of this Consortium. This company is in compliance with, and is a full participant in, the Federal Drug and Alcohol testing regulations of the Department of Transportation/Federal Aviation Administration. This certification is good at least until April 22, 2018.

As a member of this consortium, and being in a "combined pool," this company, as an individual company, is not required to necessarily meet the minimum 25% random drug nor the 10% random alcohol testing, since the consortium random combined pool certifies that it meets at least these minimum percentages, and did so for the year 2016 and every year previously, since 1993. The consortium also certifies that it performs the required number of blind sample tests based on total annual testing rates, as required by 14 CFR 40.103.

Sincerely
John Carpenter
Program Manager
